EXPANDING THE HIGHWAY

Caltrans proposes to widen State Route 98 (SR-98) from two to four lanes from Dogwood Road to west of Ollie Avenue, and from four to six lanes from Ollie Avenue to SR-111. Project limits were extended to the west as required from Traffic studies that took into account planned growth in the area. Construction will include widening and signaling a half-dozen intersections.

SECURING DOLLARS

The estimated total cost of the project is \$65.9 million broken down in the following phases (see map on the back of page):

Phase 1A	\$6.5 million
Phase 1B	\$9.4 million
Phase 1C	\$31 million
Phase 2	\$19 million

Phase 1B is fully funded from federal, state and local sources.

Funding is needed for the remaining phases.

WHAT'S AHEAD?

Phase 1B is in the Design phase and is scheduled to begin construction in early 2014. Construction on the other phases will be scheduled when funding is available.

State Route 98 Widening (Dogwood Avenue to Rockwood Avenue)
